Early Human Development 52 (1998) 275-278

**Early Human
Development**

Subject index

Volume 52 (1998)

Acardiac: Monozygotic twin pregnancy; Heart malformation; TRAP sequence; Vessel anastomosis **52, 81**

African newborns: Serum copper; Ceruloplasmin; Preterm infant; Antioxidant capacities **52, 199**

Amniotic fluid: Trisomy; Pregnancy; Fetal kidney; Hydrops **52, 211**

Animal model: Fetal urethral obstruction; Fetal surgery; Renal function **52, 111**

Antenatal steroids: Very low birthweight infants; Plasma vitamin A; Meta-analysis; Bronchopulmonary dysplasia; Retinopathy of prematurity **52, 155**

Antioxidant capacities: Serum copper; Ceruloplasmin; African newborns; Preterm infant **52, 199**

ATP: Intrauterine growth retardation; Brain; Hypoglycemia; Lactate **52, 1**

Auditory development: Brainstem auditory evoked response; Evoked potentials; Hearing; Neonates; Auditory neurophysiology; Synaptic transmission **52, 133**

Auditory neurophysiology: Auditory development; Brainstem auditory evoked response; Evoked potentials; Hearing; Neonates; Synaptic transmission **52, 133**

Behavioural states: Fetal behaviour; Postmaturity; Ultrasound; Fetal monitoring **52, 125**

Biological effects: Pulsed ultrasound; Tissue heating; Ultrasound safety; Thermal bioeffects; Foetus **52, 221**

Brain: Intrauterine growth retardation; Hypoglycemia; ATP; Lactate **52, 1**

Brain ischaemia: Intrauterine growth restriction; Neurodevelopmental outcome; Fetal 'brainparing'; Intracranial haemorrhages; Middle cerebral artery; Doppler ultrasound; Neurosonography; IUGR **52, 67**

Brainstem auditory evoked response: Auditory development; Evoked potentials; Hearing; Neonates; Auditory neurophysiology; Synaptic transmission **52, 133**

Bronchopulmonary dysplasia: Very low birthweight infants; Plasma vitamin A; Meta-analysis; Retinopathy of prematurity; Antenatal steroids **52, 155**

Cardiac: Congenital heart disease; Fetal; Prenatal diagnosis **52, 13**

Cardiorespiratory stability: Kangaroo care; Premature infant **52, 145**

Catecholamines: Lactate; Pyruvate; Fetal hypoxia **52, 87**

Central pattern generation: Orofacial; Infant; Entrainment; Non-nutritive sucking; Electromyography **52, 181**

Cerebral haemoglobin concentration: Healthy term newborn infants; Sleep state changes; Near infrared spectroscopy **52, 27**

P11: S0378-3782(98)00058-9

- Ceruloplasmin**; Serum copper; African newborns; Preterm infant; Antioxidant capacities **52**, 199
- Congenital heart disease**; Cardiac; Fetal; Prenatal diagnosis **52**, 13
- Congenital infection**; Human cytomegalovirus (HCMV); Polymerase chain reaction (PCR); Soluble interleukin-2 receptor (sIL-2R); Interferon (IFN)- γ **52**, 43
- Coronary arteries**; Perinatal cardiovascular adaptation; Rapid whole body freezing technique **52**, 21
- Doppler ultrasound**; Intrauterine growth restriction; Neurodevelopmental outcome; Fetal 'brainsparing'; Intracranial haemorrhages; Middle cerebral artery; Neurosonography; Brain ischaemia; IUGR **52**, 67
- Electromyography**; Orofacial; Infant; Entrainment; Central pattern generation; Non-nutritive sucking **52**, 181
- Entrainment**; Orofacial; Infant; Central pattern generation; Non-nutritive sucking; Electromyography **52**, 181
- Erythropoietin**; Erythropoietin receptor; Human fetal development **52**, 235
- Erythropoietin receptor**; Erythropoietin; Human fetal development **52**, 235
- Evoked potentials**; Auditory development; Brainstem auditory evoked response; Hearing; Neonates; Auditory neurophysiology; Synaptic transmission **52**, 133
- Fetal**; Cardiac; Congenital heart disease; Prenatal diagnosis **52**, 13
- Fetal behaviour**; Behavioural states; Postmaturity; Ultrasound; Fetal monitoring **52**, 125
- Fetal 'brainsparing'**; Intrauterine growth restriction; Neurodevelopmental outcome; Intracranial haemorrhages; Middle cerebral artery; Doppler ultrasound; Neurosonography; Brain ischaemia; IUGR **52**, 67
- Fetal hypoxia**; Lactate; Pyruvate; Catecholamines **52**, 87
- Fetal kidney**; Trisomy; Pregnancy; Amniotic fluid; Hydrops **52**, 211
- Fetal monitoring**; Fetal behaviour; Behavioural states; Postmaturity; Ultrasound **52**, 125
- Fetal surgery**; Fetal urethral obstruction; Renal function; Animal model **52**, 111
- Fetal urethral obstruction**; Fetal surgery; Renal function; Animal model **52**, 111
- Foetus**; Pulsed ultrasound; Biological effects; Tissue heating; Ultrasound safety; Thermal bioeffects **52**, 221
- Healthy term newborn infants**; Sleep state changes; Near infrared spectroscopy; Cerebral haemoglobin concentration **52**, 27
- Hearing**; Auditory development; Brainstem auditory evoked response; Evoked potentials; Neonates; Auditory neurophysiology; Synaptic transmission **52**, 133
- Heart malformation**; Monozygotic twin pregnancy; Acardiac; TRAP sequence; Vessel anastomosis **52**, 81
- Heart-rate**; Thermal stimulation; Neonates **52**, 49
- Human cytomegalovirus (HCMV)**; Polymerase chain reaction (PCR); Congenital infection; Soluble interleukin-2 receptor (sIL-2R); Interferon (IFN)- γ **52**, 43
- Human fetal development**; Erythropoietin; Erythropoietin receptor **52**, 235
- Hydrops**; Trisomy; Pregnancy; Amniotic fluid; Fetal kidney **52**, 211
- Hypoglycemia**; Intrauterine growth retardation; Brain; ATP; Lactate **52**, 1
- Infant**; Orofacial; Entrainment; Central pattern generation; Non-nutritive sucking; Electromyography **52**, 181
- Infants**; Motor development; Longitudinal **52**, 169
- Interferon (IFN)- γ** ; Human cytomegalovirus (HCMV); Polymerase chain reaction (PCR); Congenital infection; Soluble interleukin-2 receptor (sIL-2R) **52**, 43
- Intracranial haemorrhages**; Intrauterine growth restriction; Neurodevelopmental outcome; Fetal 'brainsparing'; Middle cerebral artery; Doppler

ultrasound; Neurosonography; Brain ischaemia; IUGR 52, 67

Intrauterine growth restriction; Neurodevelopmental outcome; Fetal 'brainsparing'; Intracranial haemorrhages; Middle cerebral artery; Doppler ultrasound; Neurosonography; Brain ischaemia; IUGR 52, 67

Intrauterine growth retardation; Brain; Hypoglycemia; ATP; Lactate 52, 1

IUGR; Intrauterine growth restriction; Neurodevelopmental outcome; Fetal 'brainsparing'; Intracranial haemorrhages; Middle cerebral artery; Doppler ultrasound; Neurosonography; Brain ischaemia 52, 67

Kangaroo care; Cardiorespiratory stability; Premature infant 52, 145

Lactate; Intrauterine growth retardation; Brain; Hypoglycemia; ATP 52, 1

Lactate; Pyruvate; Catecholamines; Fetal hypoxia 52, 87

Longitudinal; Motor development; Infants 52, 169

Magnetic resonance imaging; Physiological stability; Preterm infants 52, 101

Meta-analysis; Very low birthweight infants; Plasma vitamin A; Bronchopulmonary dysplasia; Retinopathy of prematurity; Antenatal steroids 52, 155

Middle cerebral artery; Intrauterine growth restriction; Neurodevelopmental outcome; Fetal 'brainsparing'; Intracranial haemorrhages; Doppler ultrasound; Neurosonography; Brain ischaemia; IUGR 52, 67

Monozygotic twin pregnancy; Acardiac; Heart malformation; TRAP sequence; Vessel anastomosis 52, 81

Motor development; Infants; Longitudinal 52, 169

Near infrared spectroscopy; Healthy term newborn infants; Sleep state changes; Cerebral haemoglobin concentration 52, 27

Neonatal sepsis; Newborn infants; TNF receptors 52, 251

Neonates; Auditory development; Brainstem au-

ditory evoked response; Evoked potentials; Hearing; Auditory neurophysiology; Synaptic transmission 52, 133

Neonates; Thermal stimulation; Heart-rate 52, 49

Neurodevelopmental outcome; Intrauterine growth restriction; Fetal 'brainsparing'; Intracranial haemorrhages; Middle cerebral artery; Doppler ultrasound; Neurosonography; Brain ischaemia; IUGR 52, 67

Neurosonography; Intrauterine growth restriction; Neurodevelopmental outcome; Fetal 'brainsparing'; Intracranial haemorrhages; Middle cerebral artery; Doppler ultrasound; Brain ischaemia; IUGR 52, 67

Newborn infants; Neonatal sepsis; TNF receptors 52, 251

Non-nutritive sucking; Orofacial; Infant; Entrainment; Central pattern generation; Electromyography 52, 181

Orofacial; Infant; Entrainment; Central pattern generation; Non-nutritive sucking; Electromyography 52, 181

Perinatal cardiovascular adaptation; Coronary arteries; Rapid whole body freezing technique 52, 21

Physiological stability; Magnetic resonance imaging; Preterm infants 52, 101

Plasma vitamin A; Very low birthweight infants; Meta-analysis; Bronchopulmonary dysplasia; Retinopathy of prematurity; Antenatal steroids 52, 155

Polymerase chain reaction (PCR); Human cytomegalovirus (HCMV); Congenital infection; Soluble interleukin-2 receptor (sIL-2R); Interferon (IFN)- γ 52, 43

Postmaturity; Fetal behaviour; Behavioural states; Ultrasound; Fetal monitoring 52, 125

Pregnancy; Trisomy; Amniotic fluid; Fetal kidney; Hydrops 52, 211

Premature infant; Kangaroo care; Cardiorespiratory stability 52, 145

Prenatal diagnosis; Cardiac; Congenital heart disease; Fetal 52, 13
